## ORDERING

### 4 WAYS TO ORDER:

Online: [www.gci-ga.com](http://www.gci-ga.com)  
Phone: 404-244-5112 or 800-282-7130  
Fax: 404-244-5141  
Email: [customerservice@gci-ga.com](mailto:customerservice@gci-ga.com)

GCI accepts the State of Georgia Purchasing Card and Purchase Orders. Orders may be transmitted by fax, email, phone or mail. When ordering, please verify and provide the following information:

- Agency name, billing and shipping addresses, phone and fax numbers.
- Product number, description, color and price for each item.
- Purchase order number or purchasing card number, name and expiration date.
- Any special instructions regarding delivery, billing matters, etc.
- Please provide an email address or fax number to receive your order confirmation.

## WARRANTY

**GCI Mattresses warranty extends to one year beginning on the date of the original order invoice.** Georgia Correctional Industries will repair or replace, at its exclusive option, any GCI product that is determined to be defective in materials or workmanship, according to its warranty schedule. The warranty period begins on the date of the original order invoice. In the event that the customer cannot provide documentation of the original invoice date, the date of manufacture indicated on the tag affixed to the product will be used. GCI will be the sole judge in determining whether a product is defective. GCI makes no other expressed or implied warranty regarding any product it manufactures.

## INTERGOVERNMENTAL AGREEMENT

### Section 1.2.2.1 of The Georgia Procurement Manual issued by Department of Administrative Services:

- The Georgia constitution authorizes state entities to enter into an intergovernmental agreement if the items to be acquired are available from that source.
- An intergovernmental agreement is a contract between two or more government entities.
- Permissible government entities include state and local (county, city, etc.) government entities within the state of Georgia, as well as other states of the United States of America.
- Intergovernmental agreements DO NOT require approval from SPD or competitive bidding and are not subject to dollar limits.

*Note: To be considered exempt from the competitive bidding requirements of the State Purchasing Act, the good or service must be materially provided by the other governmental entity and not passed through the governmental entity by a private third party.*

# ABOUT

Georgia Correctional Industries (GCI) was established in 1960. GCI is a public corporation owned by the State of Georgia Department of Corrections, but operates on revenues generated by the sale of its products. GCI receives no direct funding from the state, but must compete in the marketplace as it provides job training for inmates in the state prison system.

GCI plays a key role in meeting the expectations placed on Georgia’s prison system by operating plants at 16 state prisons. Inmates working in these business enterprises receive training and develop marketable job skills and positive work habits needed for post-release employment. Paroling authorities want inmates who, upon release from prison, can find work with a living wage and, therefore are less likely to re-offend.

As a programmatic component of the Georgia Department of Corrections, GCI believes that excellence can only be achieved through successfully linking training, industry, and education.

The benefits derived from such a program are realized by the taxpayers of the State of Georgia, the Department of Corrections and the inmate participants.

## BACTERIA RESISTANT COVERINGS

- ✓ Our bacteria resistant cover fabrics are inherently flame retardant and will self-extinguish the instant the flame source is removed.
- ✓ Patented dual agent antibacterial system effectively reduces the growth of both gram positive and gram negative bacteria on the fabric's surfaces.
- ✓ Non-absorbent bacteria resistant fabrics confine and eliminate "hidden" contamination buildup caused by fluid seep-through. Our bacteria resistant fabrics carry Environmental Protection Agency Registration No. 8730-2.
- ✓ Approvals and registrations include every major fire regulatory agency.
- ✓ ACA Cotton Ticking also available.

### Coated Blue Nylon Fabric Covering

Provides the comfort of fabric with the added benefit of fluid resistance. Anti-bacterial and anti-fungal material keeps moisture and odors out. Flame resistant and meets California Fire Marshal Bulletin 117 and NFPA 701.

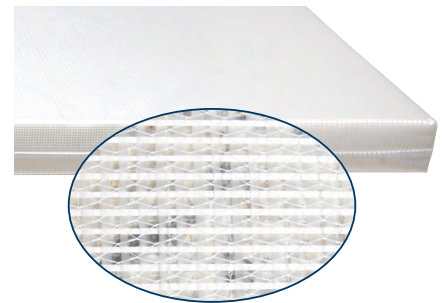

### Vinyl Covering (Green or Tan)

Offers fabric-like comfort while being bacteria-resistant, flame retardant and very durable. Easy to clean, strong and tear resistant. Fabric will self-extinguish the instant the flame source is removed. EPA Registered (#8730-2).

### Clear Vinyl Covering

Transparent material helps prevent hiding of contraband. Flame retardant, fluid resistant, anti-bacterial and anti-fungal. Textured structure helps prevent ripping and tearing. Passes NFPA 701, large scale, Cal 117, 16CFR Part 1632 (FF4-72), classified Class A, Passes vertical flame test of Federal Standard 191, Method 5903.

## FIRE RETARDANT CORES

- ✓ Standard core densities: 2 oz. (soft) or 3 oz. (firm)
- ✓ All mattresses produced by GCI are built with materials containing inherently fire retardant characteristics. While some types of mattresses are, by law, prohibited in certain types of institutions, the GCI mattresses made with low-smoke CR Safeguard and boric acid treated cotton batting have been approved by the Georgia State Fire Marshal for use in penal institutions, detention centers, and mental health institutions, as well as other health care facilities.
- ✓ GCI mattresses and pillows are made from new, unused materials and have the contents and material labels attached as required by law.

### Densified Polyester Core

Provides comfort and long service at a very attractive cost. Lightweight, resilient, drains quickly, and is resistant to mold, mildew and odors. Meets California Fire Marshal Bulletin 121 and 129 when covered in a compliant cover material.

### Boric Acid Treated Cotton Core

A blend of 50% by weight linters and 50% by weight cotton binders. Cotton is homogeneously treated with boric acid in enough volume to yield net 10% of the weight of the garnetted cotton pad. Meets California Fire Marshal Bulletin 117, test method ASTM 1692.

DP Core, Hunter Green Vinyl Cover

DP Core, Hunter Green Vinyl Cover with Pillow

### BACTERIA RESISTANT GREEN VINYL

- ✓ 10 oz.
- ✓ 14 Mil
- ✓ Non-porous and non-fading laminated fabric
- ✓ Fire-resistant 16 CFR 1633 certified
- ✓ Hypo-allergenic
- ✓ One year warranty beginning on the date of the original order invoice
- ✓ Standard cores densities: 2 oz., 3 oz.
- ✓ See page 5 for Densified Polyester (DP) Core information.

*Choose 2 oz. density for  
softer feel or 3 oz. density  
for firmness and more  
resiliency.*

**GCI will match  
or beat any  
competitor's price  
on equivalent  
mattresses!**

### SEALED SEAM MATTRESSES

Sealed Seam Mattresses help prevent bed bug infestation. They are fluid and bacteria resistant and help to prohibit the spread of disease and infection.

Each mattress is made with a durable 3 oz. densified polyester core and is available with or without a built-in pillow.

**NEW!**

*Radio Frequency Heat seals 6 internal seams and 1 external seam.*

*Side microvents allow air release during compression.*

- ✓ Green and tan vinyl covers offer fabric-like comfort.
- ✓ EPA Registration (#8730-2)
- ✓ Clear vinyl covers help prevent hiding of contraband inside the mattress.
- ✓ Covers are bacteria resistant, anti-fungal, flame resistant and odor free.
- ✓ Easily cleaned with soap and water
- ✓ 100% Sealed Seams lock out odors and contaminants.
- ✓ Fire-resistant 16 CFR 1633 certified
- ✓ Hypo-allergenic
- ✓ One year warranty, beginning on the date of the original order invoice
- ✓ Standard core densities: 2 oz., 3 oz.
- ✓ See page 5 for Densified Polyester (DP) Core information.

Cotton Core Pillow with  
Blue Nylon Cover

Cotton Core Pillow with Clear Vinyl Cover

- ✓ Two types of standard pillow styles to choose from: bacterial resistant vinyl cover (clear, hunter green and tan) and coated nylon with cover.
- ✓ Bacteria resistant vinyl cover is flame retardant and very durable. Reinforced clear vinyl allows for easy inspections in secure environments. Easy to clean, strong and tear resistant. Pillow core is blend of 50% by weight linters and 50% by weight cotton binders treated with boric acid. Meets California Fire Marshal Bulletin 117, test method ASTM 1692.
- ✓ Coated nylon is a fluid proof institutional cover with the comfort of fabric. This durable nylon fabric is laminated with a rubber backing. It is anti-fungal, antibacterial, and flame resistant. Fabric meets California code 117 and NFPA 701. Pillow core is low smoke boric acid treated cotton batting approved by the Georgia State Fire Marshal for use in detention and health care facilities. Non-allergenic, anti-fungal, antibacterial. Resistant to alcohol, oil, grease, ozone, and most chemical solvents. Tough, durable, and long lasting.

- ✓ Three types of mattress covers to choose from: bacterial resistant vinyl, coated nylon with zipper closure, and natural cotton poplin.
- ✓ Bacteria resistant vinyl is flame retardant and very durable. Easy to clean, strong and tear resistant. End-flap closure for easy placement. Fabric is flame retardant and will self-extinguish the instant the flame source is removed.
- ✓ Coated nylon mattress cover with a fabric feel. Provides resistance to fluids. Zippered end provides ease of placement and secure closure. Perfect for institutional environments. Flame resistant, antibacterial and anti-fungal. Meets California 117 & NFPA 701.
- ✓ Natural cotton poplin has tie closures for easy placement. Order according to actual size of mattress; cover is oversized to allow for shrinkage.

### Cancellations

Cancellations must be received by our Customer Service department at least 14 calendar days before the scheduled delivery date in order to avoid restocking fees. Custom orders, or those that require a fabric or laminate selection, cannot be canceled once the work has commenced.

### Receiving

When merchandise is received, if shipping damage or other defects are noted, do not accept the merchandise. Make a note of the damage on your copy and the driver's copy of the packing list, and have the driver sign both copies. If concealed damage is found after the driver leaves, you must report it to Customer Service within 14 calendar days after delivery in order to preserve your right to return the damaged merchandise and receive proper replacement or credit.

### Invoicing

Invoices are generated and mailed at the time of shipment. Payment terms are Net 30. Please make your remittance payable to Georgia Correctional Industries. Return one copy of the invoice with payment to insure proper credit.

### Return of Merchandise

Please inspect merchandise immediately upon delivery. If you wish to return an unwanted item, you must request authorization to do so within 7 calendar days after you receive it. Standard merchandise returned under these conditions will be credited at full value, except that upholstered furniture will receive credit minus a 20% restocking fee.
