GCI CASE HISTORY: ENGRAM HALL AT SOUTH GEORGIA STATE COLLEGE

Project: Provide and install distinctive furnishings for Engram Hall, a centerpiece of the South Georgia State College campus. Furnishings must be durable and caretaker friendly to support the ongoing needs of students, staff, faculty, and visitors.

Background: South Georgia State College has grown over 45 percent since 2005. Engram Hall, the Student Success Center, was renovated in 2012 to completely modernize the interior and portions of the exterior.

The new interior was designed to offer a contemporary, efficient, and welcoming space for the offices of Admissions, Registration, and Financial Aid, the campus Bookstore, and a multi-function meeting room.

"It was a pleasure working with South Georgia State College. GCI is dedicated to providing superior customer service and quality products. We pride ourselves in delivering projects on-schedule and on-budget."

-- Barry Boalch
GCI Director of Sales

GCI provides real-world, hands-on job skills training for Georgia state inmates. Our products and services are available to government entities and contractors working on government projects.
